
Integral Management Policy

Integral Management Policy

Confirming Wind Consulting's commitment regarding the SGI, senior management establishes the integral management policy presented below:

"At Wind Consulting, we offer information technology solutions dedicated to software development, specialized services consulting, training, support, infrastructure, and project management. We meet our clients' digital transformation needs to achieve the development and automation of their processes through technology in an effective and efficient manner. We comply with applicable legal and regulatory requirements, committed to the mitigation and management of risks, the integrity of operations, the security and availability of information, as well as the continuous improvement of the SGI."

Carlos Eduardo Crespo Velasco
